

# Marching Band Uniform Care and Cleaning

## Jackets and Bib Pants:

- Machine wash jackets and bib pants separately in **cold water** on the **gentle cycle** and **hang dry**. **Use only non-chlorine detergent!**
- **Do not use liquid fabric softener on band uniforms!**
- You may use “Spray and Wash” and other non-chlorine stain removers before washing.
- **Please iron the hem but do not iron over the snap area.** The heat will melt the snap imprint onto the outside of the pants. Have your child put on the bib pants with their shoes to check the hem.

## Gauntlets:

- You may wash the gauntlets separately in cold water with no bleach. Line dry; do not put them in the dryer. They need to remain stiff.
