

Dear Parents and Guardians,

The 8th Grade Science Teachers at Hudson Middle School create hands-on learning opportunities for our students to help increase their understanding of the science concepts we will learn this year. We are asking for your help in collecting and donating supplies for our hands-on activities. Please send any items you would like to contribute in a clean gallon size bag or clean grocery store bag by November 22nd. We have provided a list of suggested items below, but we will take any “junk drawer” or craft project items you would like to contribute. Thank you for helping us bring fun and excitement to the science classroom.

Thank you for your help,

The Hudson Middle School 8th Grade Science Team
Coach Wilson, Mrs. Johnson, Ms. Jackson
