

## Linking Multiple Students

In Charms, you can “link” the accounts for your children. This doesn’t combine them into a single account, but it does make it easier for you to log in and then switch back and forth between accounts.

1. Log in to the first child’s account and set up a password, then log out.
2. Repeat for each child you have in the marching band.
3. Log in to any account — it doesn’t matter which one.
4. Click/tap the “Multiple Students” button:

**Multiple  
Students**

5. On the next page: enter the school code, then enter the password for the second child.
6. You will now see a list that shows the linked account. When you log in to Student A, you'll see Student B in the list. When you log in to Student B, you'll see Student A.

To move from one student account to the other, use the “Multiple Students” button to open your linked students list, then click the green “Switch to Student” button.

If you have any problems, contact Tracey Bean ([administrator@soudertonbigred.org](mailto:administrator@soudertonbigred.org)) or Amy McCouch ([dba@soudertonbigred.org](mailto:dba@soudertonbigred.org)).
